

## FINANCIAL AND INSTITUTIONAL ASPECTS

IFAD's investment policy was reviewed and its human resources policies and procedures revised in 2003

## **Investments**

### **IMPLEMENTATION OF A NEW INVESTMENT POLICY**

IFAD's current investment policy was adopted in December 2001. The policy allocates five per cent of investments in cash, 44 per cent in government bonds, 23 per cent in diversified fixed-interest instruments, 18 per cent in inflation-indexed bonds and ten per cent in equities. These allocations were implemented with the exception of the asset class for inflation-indexed bonds until June 2003, when two such investments were made, bringing the class to some ten per cent of the overall portfolio. The remaining unfunded amount was held in the government bonds portfolio and, to a lesser extent, in the internally managed portfolio.

In September 2003, it was decided to shorten the duration of IFAD's government bonds portfolio in order to reduce its exposure to potential losses in the event of rising interest rates.

With respect to financial service providers, IFAD moved to a new global custodian on 1 April 2003. In October 2003, a new financial advisor was selected; appointment will follow finalization of the contractual agreement.

A review of IFAD's investment policy was conducted in 2003, in response to a recommendation by the Consultation on the Sixth Replenishment of IFAD's Resources. The review is discussed in the section on Sixth Replenishment initiatives.

## **Organization and staff**

IFAD posts in 2003 comprised 132 professional and higher-category positions, excluding the positions of President and Vice-President, and 181.5 general service positions, as in previous years. As of 12 November 2003, filled positions totalled 295.5: 118 in the first category and 177.5 in the second. Staff in the professional and higher categories comprised nationals of 48 Member States, reflecting adherence to the principle of geographical distribution, while the proportion of women increased to 35 per cent. IFAD has continued to engage consultants, conference personnel and other temporary staff to enable it to meet its short-term operational needs while maintaining a minimum number of fixed-term staff.

The Associate Professional Officer (APO) Programme benefited from nine donor countries: Denmark, Finland, Germany, Italy, Japan, Netherlands, Norway, Sweden and Switzerland. The Internship Programme accepted 35 well-qualified people from 15 countries: Algeria, Canada, Chile, Croatia, France, Germany, Greece, Italy, Lebanon, Nigeria, Tunisia, Turkey, Uganda, the United Kingdom and the United States.

In 2002, IFAD management approved the recommendations submitted by the Review Committee for Modernizing Human Resources Policies and Procedures, which was formed in September 2001 to propose a modern, clear and transparent set of rules, policies and procedures that support the overall objectives of the organization. In 2003, the Office of Human Resources, led by a new Director, continued reforms to implement the recommendations and to better management services.

A revised human resources policies and procedures manual has been drafted for review by all staff, simplifying policies and procedures and fostering transparency and accountability. A new divisional structure has been approved, which will be process-driven rather than based exclusively on job functions. This will enable human resources staff to:

- influence standards of quality, service and effectiveness
- participate in the process of assigning work, from start to finish
- serve as a visible and dedicated service unit to a specific department
- focus on outputs rather than inputs

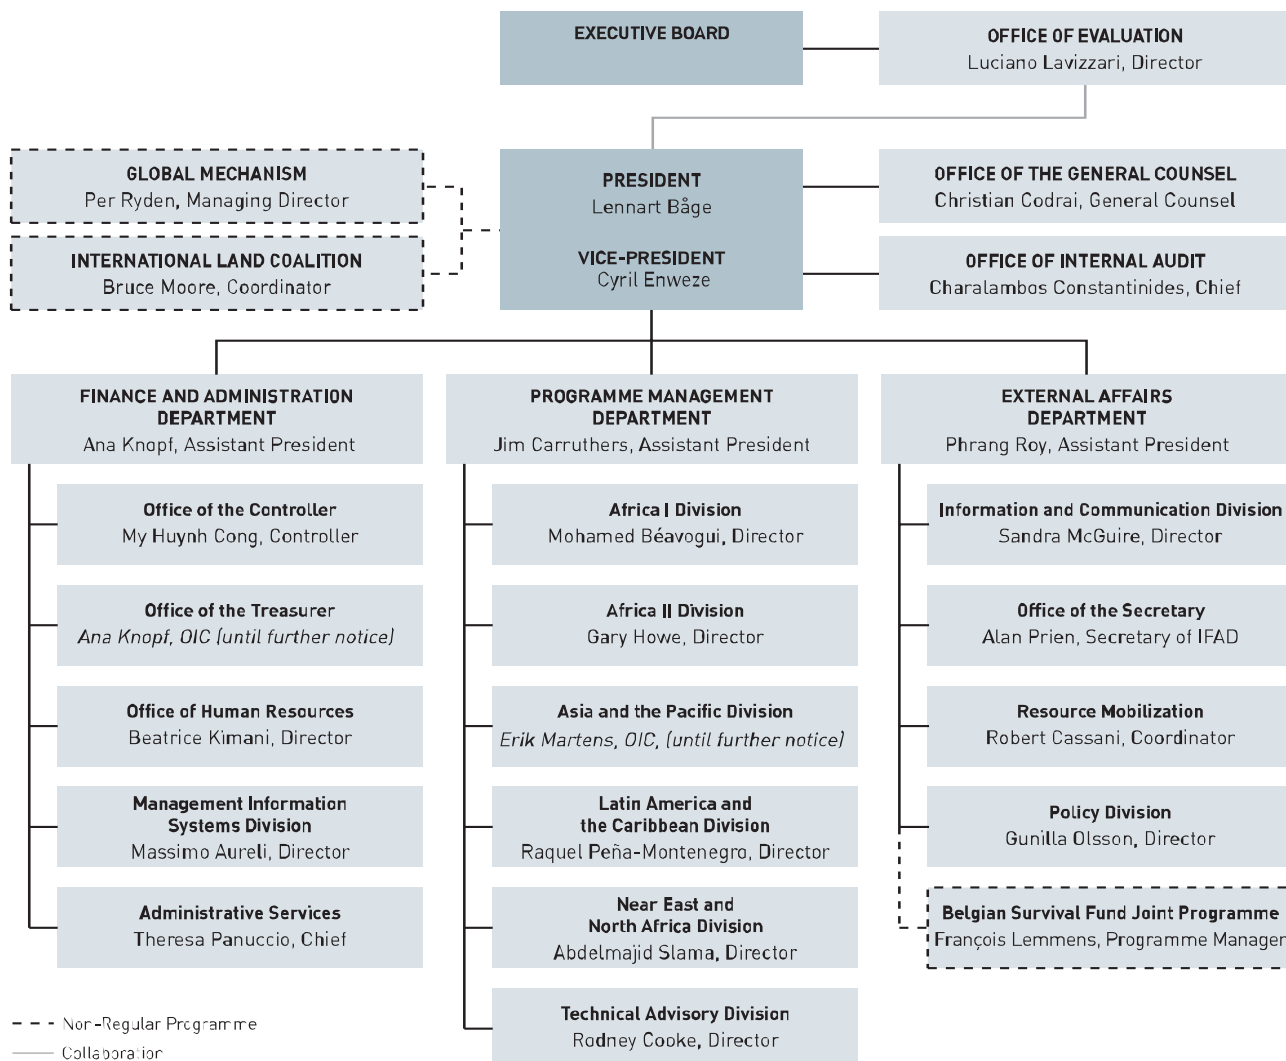

The new divisional structure is expected to be launched at the beginning of 2004. In preparation, the Office of Human Resources staff have received skills training in counselling, discipline and grievances, and in harassment in the workplace. Cross-training of staff in management of the entire cycle of human resources from hiring to pension management has begun. Twenty staff were trained in interviewing skills to strengthen a human resources system that will follow IFAD staff members from recruitment to performance and career development.

During the year, IFAD sought and was selected by the International Civil Service Commission to participate in a pilot study on pay and benefits. The study is scheduled from 2004-2006 and involves a review of job-evaluation methodology, introduction of competencies and their development needs, introduction of broadbanding and pay for performance, and introduction of senior management services.

IFAD is also participating in an inter-agency initiative with FAO and WFP to establish a development centre that will be operational as a pilot in May 2004. The purpose of the centre is to assess and develop staff managerial potential, allowing for a more tailored approach to individual career development. The centre is being funded initially by DFID and thereafter will be maintained by the three agencies.

# Organizational Chart

as of 31 December 2003

## Membership and representation

As of 31 December 2003, IFAD had a total membership of 163 countries: 23 in List A, 12 in List B and 128 in List C, of which 49 are in Sub-List C1, 48 in Sub-List C2 and 31 in Sub-List C3.

## **CONSOLIDATED FINANCIAL STATEMENTS**

for the years ended 31 December 2003 and 31 December 2002\*

<b>Appendix A</b>	Consolidated Statement of Revenues and Expenses
<b>Appendix A1</b>	IFAD-Only Statement of Revenues and Expenses
<b>Appendix A2</b>	IFAD-Only Statement of Operating Expenses
<b>Appendix A3</b>	Consolidated Statement of Total Recognized Gains and Losses
<b>Appendix A4</b>	IFAD-Only Statement of Total Recognized Gains and Losses
<b>Appendix B</b>	Consolidated Balance Sheet
<b>Appendix B1</b>	IFAD-Only Balance Sheet
<b>Appendix B2</b>	IFAD-Only Total Assets Retranslated in SDR
<b>Appendix C</b>	Consolidated Cash-Flow Statement
<b>Appendix D</b>	Statement of IFAD-Only Resources Available for Commitment
<b>Appendix E</b>	Statement of Member States' Contributions and Special Contributions
<b>Appendix E1</b>	Statement of Complementary and Supplementary Contributions
<b>Appendix F</b>	Statement of Loans
<b>Appendix G</b>	Summary of the Debt Initiative for Heavily Indebted Poor Countries
<b>Appendix H</b>	Notes to the Consolidated Financial Statements
<b>Report of the External Auditor</b>	

These financial statements have been prepared using the symbols of the International Organization for Standardization (ISO), Geneva, International Standard 4217 and SDR. The Notes to the Consolidated Financial Statements (Appendix H) form an integral part of the financial statements.

\* As submitted for endorsement to the Eighty-First Session of the Executive Board in April 2004 for further submission to the Twenty-Eighth Session of the Governing Council for approval in accordance with Regulation XII/6 of the Financial Regulations of IFAD.

**APPENDIX A • Consolidated Statement of Revenues and Expenses**<sup>1</sup>

For the years ended 31 December (expressed in thousands of United States dollars)

	2003	2002
<b>Revenues</b>		
Income from loans (Note 3)	47 100	42 388
Income from cash and investments (Note 4)	114 500	34 620
Income from other sources (Note 5)	5 612	6 246
Contributions income (Note 6)	20 615	20 292
<b>Total Revenues</b>	<b>187 827</b>	<b>103 546</b>
<b>Operating Expenses</b>		
Staff salaries and benefits (Note 7)	(40 617)	(32 691)
Office and general expenses	(18 729)	(16 308)
Consultants and other non-staff costs	(26 569)	(23 941)
Cooperating institutions	(9 227)	(7 771)
Direct bank and investment costs (Note 8)	(5 277)	(7 519)
<b>Subtotal (Note 9)</b>	<b>(100 419)</b>	<b>(88 230)</b>
Grant expenses (Note 10)	(22 854)	(26 708)
Allowance for loan impairment losses (Note 3 (b))	17 546	(5 834)
Debt Initiative for HIPCs expenses (Note 11)	(14 010)	(39 869)
Provision for after-service medical benefits (Note 7 (c))	(4 300)	(7 900)
<b>Total Operating Expenses</b>	<b>(124 037)</b>	<b>(168 541)</b>
<b>Total Revenues Less Operating Expenses</b>	<b>63 790</b>	<b>(64 995)</b>
<b>Net Foreign-Exchange-Rate Movements (Note 2 (c))</b>	<b>486 739</b>	<b>373 369</b>
<b>Transfer to Retained Earnings</b>	<b>550 529</b>	<b>308 374</b>

<sup>1</sup> This statement includes transactions for the following entities:

- IFAD
- Special Programme for Sub-Saharan African Countries Affected by Drought and Desertification (SPA)
- Other supplementary funds, including cofinancing, associate professional officers and programmatic supplementary funds; the Belgian Survival Fund Joint Programme (BSF.JP); and the Global Environment Facility
- Debt Initiative for Heavily Indebted Poor Countries (HIPCs) Trust Fund
- After-Service Medical Coverage Scheme (ASMCS) Trust Fund

See Note 2(a) for further information.

**APPENDIX E • Notes to Statement of Member States' Contributions and Special Contributions**

- 1/ Member States' contributions have been translated on the basis of the following:
  - (i) at year-end market rates of exchange for amounts paid in the form of promissory notes and not yet drawn down, and for non-convertible currencies not yet disbursed;
  - (ii) at market rates of exchange as at date of receipt for amounts in cash, including drawdown payments, and at market rates of exchange as at date of disbursement in the case of non-convertible currencies.
- 2/ In those cases where no instrument has been received, the amounts shown are the equivalent of the actual payments.
- 3/ These contributions were promised or paid in the constituent currencies of the euro prior to the introduction of the euro. For accounting convenience IFAD has converted all these contributions into euro from the said constituent currencies.
- 4/ The Twelfth Session of the Governing Council of IFAD adopted Resolution 53/XII, reclassifying Greece from membership of Category III to that of Category I, with effect from 24 January 1989.
- 5/ The Fourteenth Session of the Governing Council of IFAD adopted Resolution 65/XIV, reclassifying Portugal from membership of Category III to that of Category I, with effect from 29 May 1991.
- 6/ See Appendix H, Note 14.
- 7/ The Fifteenth Session of the Governing Council adopted Resolution 68/XV on 21 January 1992, approving the application for membership of these countries.
- 8/ These Member States completed their membership formalities after the period of the First Replenishment.
- 9/ The Sixteenth Session of the Governing Council adopted Resolution 73/XVI on 22 January 1993, approving the application for membership of these countries.
- 10/ The Seventeenth Session of the Governing Council adopted Resolution 78/XVII on 26 January 1994, approving the application for membership of these countries.
- 11/ The Sixth Session of the Governing Council approved Resolution 23/VI on 13 December 1982, approving the application for membership of these countries.
- 12/ The Eighteenth Session of the Governing Council adopted Resolution 88/XVIII on 26 January 1995, deciding that the balance of the non-convertible currency contributions of Brazil to the First and Second Replenishments shall be converted into freely convertible currencies and transferred as its contribution to the Fourth Replenishment of IFAD's Resources. As agreed with the Government of Brazil, this has taken place upon effectiveness of the Fourth Replenishment.
- 13/ This Member State completed its membership formalities after the period of the Second Replenishment.
- 14/ The Fourteenth Session of the Governing Council adopted Resolution 64/XIV on 29 May 1991, approving the application for membership of this country.
- 15/ The Nineteenth Session of the Governing Council adopted Resolution 91/XIX on 17 January 1996, approving the application for membership of this country.
- 16/ With the adoption of Resolution 86/XVIII on 26 January 1995 and its entry into force on 20 February 1997, and with the effectiveness of Resolution 87/XVIII on 29 August 1997, the Fourth Replenishment became effective and consequently 'Categories' were replaced by 'Lists', with all Member States listed in alphabetical order.
- 17/ The Twenty-Fourth Session of the Governing Council adopted Resolution 120/XXIV on 20 February 2001, approving the application for membership of this country.

## APPENDIX E1 • Statement of Complementary and Supplementary Contributions

<sup>1</sup> Loans approved in 1978 were denominated in United States dollars and are repayable in the currencies in which withdrawals are made. From 1979, loans have been denominated in SDRs and, for purposes of presentation in the balance sheet, the accumulated amount of loans denominated in SDRs has been valued at the USD/SDR rate of 1.48644/1 at 31 December 2003. Since the loans were valued at 31 December 2002 at the then prevailing rate of 1.35952/1, there is an increase in value in terms of United States dollars of USD 579 967 000, attributable to the movement in exchange rates from 31 December 2002 to 31 December 2003 (from 2001 to 2002, there was an increase in value in terms of United States dollars of USD 454 475 000).

<sup>2</sup> Repayment amounts include participation by The Netherlands and Norway in specific loans to these countries, resulting in partial early repayment and a corresponding increase in committable resources.

<sup>3</sup> See Appendix H, Note 3(e).

1 January 2009 to 31 December 2013	44 870
1 January 2014 to 31 December 2018	43 122
1 January 2019 to 31 December 2023	42 857
1 January 2024 to 31 December 2028	41 286
1 January 2029 and thereafter	80 377
<b>TOTAL</b>	<b>296 827</b>

<sup>1</sup> Loans have been denominated in SDR and, for purposes of presentation in the balance sheet, the accumulated amount has been valued at the USD/SDR rate of 1.48644/1 as at 31 December 2003. Since the loans were valued at 31 December 2002, at the then prevailing rate of 1.35952/1, there has been an increase in value in terms of United States dollars of USD 29 185 000, attributable to the movement in exchange rates from 31 December 2002 to 31 December 2003 (from 2001 to 2002 there was an increase in value in terms of United States dollars of USD 23 775 000).

## APPENDIX G • Summary of the Debt Initiative for Heavily Indebted Poor Countries

As at 31 December (expressed in thousands of United States dollars)

At 31 December 2003, the cumulative position of the debt relief provided and estimated to be provided, under both the original and enhanced Debt Initiative for HIPCs, is as follows:

	Debt Relief Provided to Date		Debt Relief to be Provided		Total		Total
	Principal	Interest	Principal <sup>1</sup>	Interest	Principal	Interest

## APPENDIX H • Notes to the Consolidated Financial Statements

### NOTE 1

#### BRIEF DESCRIPTION OF THE FUND AND THE NATURE OF OPERATIONS

The International Fund for Agricultural Development (IFAD or the Fund) is a specialized agency of the United Nations. IFAD formally came into existence on 30 November 1977, on which date the agreement for its establishment entered into force, and has its headquarters in Rome, Italy. The Fund and its operations are governed by the *Agreement Establishing the International Fund for Agricultural Development*.

Membership in the Fund is open to any state member of the United Nations or any of its specialized agencies, or of the International Atomic Energy Agency (IAEA). The Fund's resources come from Member contributions, special contributions from non-Member States and other sources, and funds derived or to be derived from operations.

The objective of the Fund is to mobilize additional resources to be made available on concessional terms primarily for financing projects specifically designed to improve food production systems, the nutritional level of the poorest populations in developing countries and the conditions of their lives. IFAD mobilizes resources and knowledge through a dynamic coalition of the rural poor, governments, financial and development institutions, non-governmental organizations and the private sector, including cofinancing. Financing from non-replenishment sources in the form of supplementary funds and human resources forms an integral part of IFAD's operational activities.

### NOTE 2

#### SUMMARY OF SIGNIFICANT ACCOUNTING AND RELATED POLICIES

##### (a) Basis of Accounting

The Consolidated Financial Statements of the Fund are prepared in accordance with International Financial Reporting Standards (IFRS) and under the historical cost convention. The format of the Consolidated Statement of Revenue and Expenses (formally called the Statement of Activities and Changes in Net Assets) is changed from 2003 onwards in order to present the operations of the Fund more concisely. Similarly, the expenditures incurred by the Fund have been classified on a more consistent basis. Certain data have been aggregated in the balance sheet on the grounds of immateriality. Certain reclassifications of the prior year's information have been made to conform to the current year's presentation.

Preparation of the financial statements requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates. Significant judgements have been used in the computation of estimated losses for the Debt Initiative for HIPC's and overdue loan repayments.

Financing in the form of supplementary funds and human resources forms an integral part of IFAD's operational activities. As such, from 2003 on the Fund prepares consolidated accounts, which include the transactions and balances for the following entities:

- Special Programme for Sub-Saharan African Countries Affected by Drought and Desertification
- Other supplementary funds, including cofinancing, associate supplementary officers and programmatic supplementary funds; the Belgian Survival Fund Joint Programme and the Global Environment Facility

- Debt Initiative for HIPC's Trust Fund
- After-Service Medical Coverage Scheme Trust Fund

These entities have a direct link to IFAD's core activities and are substantially controlled by IFAD. Accordingly, from 2003 on they are consolidated in IFAD's financial statements for reasons of completeness and clarity. Prior to 2003, separate financial statements were drawn up for the BSF.JP and other supplementary funds, which were not included in IFAD's financial statements on the basis of immateriality. Additional financial data for these funds will be drawn up as and when requested to meet donor requirements. All transactions and balances between these entities have been eliminated.

This change to prepare consolidated accounts has been applied retroactively and comparative information has been restated accordingly. Certain information is provided in the accounts for entities separately where this is deemed of interest to the readers of the accounts.

Loans are stated at cost, less an allowance for losses due to impairment (i.e. possible reduction in the value of an asset) to be made in cases where the full amount of the loan is not being repaid in accordance with the original repayment schedule. In addition, in instances where IFAD participates in debt relief under the Debt Initiative for HIPC's framework, an allowance is established for the estimated impairment loss.

The Fund carries its investment securities at market value, with the exception of selected securities that the Fund intends to hold until maturity, which are carried on the basis of cost. Both realized and unrealized security gains and losses are included in income from investments as they arise. Both realized and unrealized exchange gains and losses are included in the account for movements in foreign exchange rates as they arise. All purchases and sales of investments are recognized on the trade date, which is the date that the Fund commits to purchase or sell the assets. Costs of purchase include transaction costs.

Service charge income and income from other sources is recognized as revenue in the period in which the related expenditures are incurred. In 2002 these revenues were set directly against the related costs in the accounts. From 2003 on, they are shown gross of the related costs for reasons of improved transparency. For 2002, figures have been restated accordingly, as shown in Note 5.

A contribution for IFAD replenishment resources is recorded in full as receivable when the Member deposits its instrument of contribution. Amounts receivable from Member States as contributions, loans and other receivables have been recorded at their full value except for the policy on overdue contributions described in subparagraph (f) below and on overdue loans and the Debt Initiative for HIPC's described three paragraphs above.

Contributions for non-replenishment resources are recorded as revenues in the period in which the related expenditures occur. For cofinancing activities, contributions received are recorded as revenues in the period in which the related grant is approved. Grants approved are therefore included as expenditures in the statement of revenues and expenses. Contributions relating to programmatic grants, associate professional officers and other supplementary funds are recorded in the balance sheet as deferred income and are reduced by the amount of project-related expenses in the statement of revenues and expenses. Where specified in the donor agreements, contributions received and interest earned thereon, for which no direct expenditures have yet been incurred, are deferred until future periods to be matched against the related costs.

Grants, with the exception of cofinancing activities mentioned above, are recorded as expenditures on effectiveness of the approved amount and as a liability for undisbursed amounts. Cancellations of grants are recognized as an offset to the expense in the period in which they occur.

The cost of office furniture and equipment is charged directly to expense when purchased. The expenditures involved are not material in the context of the total assets of IFAD's consolidated accounts and therefore its presented financial position. In addition, the annual expenditures do not have a significant effect on the reported results of operations. Furthermore, most office furniture and some equipment is reimbursed to IFAD and therefore actually owned by the Host Government. IFAD maintains an inventory system and performs controls to monitor the related assets.

Retained earnings represent the excess of revenue over expenses net of the effects of changes in foreign exchange rates. The resulting balance is considered a reserve for accounting purposes only and is in fact currently fully committed for loans and grants. For operational purposes, reference should be made to the Statement of IFAD-Only Resources Available for Commitment (Appendix D).

#### **(b) Area of Consolidation**

Financing for IFAD's supplementary funds is given for the following principal purposes: technical assistance grants, cofinancing, associate professional officers and programmatic or thematic funds.

Supplementary funds administered by IFAD also include BSF.JP, whose main activities relate to improvement of household food security and nutritional status in specific developing-country areas, capacity-building and empowerment. The BSF.JP is housed by IFAD, although the programme of work is agreed with the Belgian Government in the context of annual steering committee meetings. Furthermore, in 2002, IFAD became the executing agency for supervision of a Global Environment Facility project in Mali.

IFAD has established two trust funds, whose transactions and balances are included in these Consolidated Financial Statements. Please refer to Notes 7(c) and 11 for further information.

#### **Entities Housed at IFAD**

Other entities are housed at IFAD, although they do not form part of the core activities of the Fund and, as such, are not included in IFAD's accounts. These are the International Land Coalition (formally called the Popular Coalition to Eradicate Hunger and Poverty) and the Global Mechanism of the United Nations Convention to Combat Desertification (GM). The ILC and GM are separate entities, and further financial data can be found in their respective financial statements.

#### **(c) Translation and Conversion of Currencies**

The Fund, as an international organization, conducts its operations in several currencies, and at the present time maintains its accounting records in United States dollars. The financial statements are expressed in United States dollars solely for the purpose of summarizing the financial position.

The Fund has translated all items in its balance sheet, except its Member States' contributions in currencies other than the United States dollar, at market rates of exchange at year-end. Member States' contributions have been translated at market rates of exchange as at date of receipt in respect of cash, including drawdown payments, and at market rates of exchange as at date of disbursement in the case of non-convertible currencies.

From 2003 on management also prepares IFAD's total assets in SDR (Appendix B2), given that a majority of its assets are denominated in SDR and/or SDR currencies. This statement has been included solely for the purpose of providing additional information to readers of the accounts.

Revenue and expense items in currencies other than the United States dollar have been recorded at appropriate rates of exchange during the period.

The exchange adjustments arising from the translation of assets and liabilities in currencies other than the United States dollar are credited or charged to an exchange adjustment account and included in the statement of revenues and expenses.

The following rates of 1 unit of SDR in terms of USD as at 31 December were used:

Year	USD
2001	1.25673
2002	1.35952
2003	1.48644

The movement in the account for foreign exchange rates is explained as follows:

	2003	2002
	USD '000	
Opening balance at 1 January	203 032	(170 337)
Exchange movements for the year on:		
Cash and investments	172 699	119 954
Equities	13 601	20 766
Net receivables/payables	(196)	(776)
Loans and grants outstanding	299 100	228 557
Promissory notes and Members' receivables	50 484	56 649
Member States' contributions	(47 775)	(51 241)
Net exchange loss on operations	(1 174)	(540)
Total movements in the year	486 739	373 369
<b>Closing balance at 31 December</b>	<b>689 771</b>	<b>203 032</b>

#### **(d) Valuation of Financial Instruments**

(i) **Investments:** With the exception of selected securities that the Fund intends to hold until maturity, which are carried at cost, all investment securities held by the Fund are held for trading and are reported at estimated fair value, represented by the quoted market value at the balance-sheet date. Both purchases and sales of investment securities are accounted for at trade date.

(ii) **Loans:** Loans are carried in the financial statements at cost, i.e. at the full-face amount of the borrower's outstanding obligations, less an allowance for impairment losses.

#### **(e) Provisions**

Provisions are established when the Fund has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. Employee entitlements to annual leave and long-service leave are recognized when they accrue to employees. A provision is made for the estimated liability for annual leave and long-service separation entitlements as a result of services rendered by employees up to the balance-sheet date.

**(f) Provisions against Overdue Member States' Contributions**

The policy on provisions against overdue Member States' contributions is as follows:

- (i) Whenever a payment of an instalment against an instrument of contribution or a payment of a drawdown against a promissory note becomes overdue by 24 months, a provision will be made equal to the value of all overdue contribution payments or the value of all unpaid drawdowns on the promissory note(s) outstanding.
- (ii) Whenever a payment of an instalment against an instrument of contribution or a payment of a drawdown against a promissory note becomes overdue by 48 months or more, a provision will be made against the total value of the unpaid contributions of the Member or the total value of the promissory note(s) of that Member related to the particular funding period (i.e., a replenishment period).
- (iii) The end of the financial year is currently used for determining the 24- and 48-month periods.

**(g) Consolidated Cash-Flow Statement**

For the purpose of the cash-flow statement, cash and cash equivalents comprise cash in hand and deposits held at call with banks. They also include investments that are readily convertible at the balance-sheet date. Equities and net investment payables are excluded from readily convertible investments for cash-flow purposes in accordance with the related accounting standard.

**(h) IFAD Resources Available for Commitment**

Resources available for commitment are those resources in freely convertible currencies defined in Article 4, Section 1, of the *Agreement Establishing IFAD*, which have been contributed by Member States and others or have been derived, or are to be derived, from operations or loan repayments by borrowers, to the extent that these resources have not already been committed for loans and grants or appropriated to the General Reserve.

The policy for determining resources available for commitment is as follows:

- (i) Only actual payments in the form of cash or promissory notes will be included in committable resources. The value of instruments of contribution against which payment in the form of cash or promissory notes has not yet been made will be excluded from committable resources.
- (ii) As of 2003 provisions have been established for overdue promissory notes as per section (f) above. In prior years, the related periods for subsections (i) and (ii) above were 18 and 36 months respectively. Alignment of the periods for determining provisions in the balance sheet and statement of resources was done in the interests of consistency.
- (iii) The Executive Board has authority to employ advance commitment authority (ACA) prudently and cautiously to compensate, year by year, for fluctuations in the resources available for commitment and to act as a reserve resource. ACA has been used since 2001, as regular resources have not been sufficient to meet loan and grant commitments.

A loan or grant is considered to be committed when a formal agreement is signed by the Fund and the respective borrower or grantee. PDFF costs are considered to be committed when the associated milestone for each type of activity has been reached. The Fund's Executive Board reviews a statement of resources available for commitment at every Executive Board meeting to ensure that resources are available to meet loans and grants presented for approval.

**(i) Accounting Changes**

As of 2003 the Fund has:

- drawn up consolidated accounts, as indicated in Note 2 (a). Comparative figures have been adjusted to conform to the presentation in the current year;
- changed its accounting policy on contributions received from donors to finance specific activities, i.e. BSF.JP and HIPCs. Prior to 2003, these contributions were included as complementary contributions together with regular contributions in the balance sheet. From 2003 on these contributions are recognized as income within the statement of revenues and expenses and matched against the related expenditures, in order to align with the accounting principle adopted for supplementary funds and present more clearly the underlying nature of these balances. A summary of the new accounting principle can be found in Note 6;
- changed the presentation of service-charge income received from supplementary funds and entities housed at IFAD. Prior to 2003, this income was set directly against the related (staff) costs. From 2003 on the income and expenditures are grossed up for reasons of transparency. The comparative figures have been restated accordingly. A summary of the impact of this change is included in Note 5;
- aligned the time period used for determining exclusion states for Members that have overdue contributions as described in section (h) above. The effect of this change is described in Note 14 (c).

**NOTE 3  
LOANS**

**(a) Background to Loans**

IFAD loans are made only to developing states that are Members of the Fund or to intergovernmental organizations in which such Members participate. In the latter case, the Fund may require governmental or other guarantees. A loan becomes effective when IFAD has received a satisfactory legal opinion from the borrower and any other conditions precedent to effectiveness have been fulfilled. Upon effectiveness, disbursement may commence.

Loan repayments and related interest payments for loans approved during 1978 are required to be made in the currency in which the respective portion of the loan was advanced or as specified in the loan agreement. In respect of all Fund loans approved after 1 January 1979, loan repayments and interest are payable in the currency specified in the loan agreement in amounts equivalent to the SDR due, based on International Monetary Fund rates on the due dates. Loans approved are disbursed to borrowers in accordance with the provisions of the loan agreement.

Currently the lending terms of the Fund are as follows:

"(a) Special loans on highly concessional terms shall be free of interest but bear a service charge of three fourths of one per cent (0.75%) per annum and have a maturity period of forty (40) years, including a grace period of ten (10) years; (b) loans on intermediate terms shall have a rate of interest per annum equivalent to fifty per cent (50%) of the variable reference interest rate, as determined annually by the Executive Board, and a maturity period of twenty (20) years, including a grace period of five (5) years; (c) loans on ordinary terms shall have a rate of interest per annum equivalent to one hundred per cent (100%) of the variable reference interest rate, as determined annually by the Executive Board, and a maturity period of fifteen (15) to eighteen (18) years, including a grace period of three (3) years; (d) no commitment charge shall be levied on any loan."

Loans are stated at cost, minus an allowance for impairment losses. IFAD reviews its loan portfolio regularly for impairment. It makes an allowance in the event of any uncertainty about the receipt of the full amount in accordance with the original repayment schedule. The resulting write-down does not extinguish the liability of any Member State to discharge its obligations. If the write-down is no longer required, it is reversed. The net movement in the allowance for impairment loss is included as a separate line in the statement of revenues and expenses and also separately on the face of the balance sheet.

**(b) Accumulated Allowance for Impairment Losses**

The allowance is based on the difference between expected cash flows derived from those calculated on the estimated or renegotiated repayment schedule and the nominal value. The entire loan, and not just the overdue instalment, is subject to impairment. In cases where it is not possible to estimate with any reasonable certainty the expected cash flows of a loan (as in all cases for which an allowance has been established to date), an alternative approach is allowed that adopts a method similar to the benchmark used for the provisioning of Members States' contributions. This means that an allowance shall be made on loan instalments overdue by more than 24 months for all cases where a settlement plan is not being actively followed. An allowance is also made for loan instalments on the same loan overdue by less than 24 months. Once this trigger period has been reached, all amounts overdue at that time are considered to be in provision status, even in the event that part of the total outstanding debt is subsequently repaid. In cases where more than 48 months have elapsed, an allowance is made for all outstanding principal amounts of the loan concerned. The point in time from which it is necessary to determine whether or not the given period has elapsed is the balance-sheet date.

An analysis of the accumulated allowance for loan impairment losses is shown below:

	2003	2002
	USD '000	
Balance at beginning of year	78 071	72 237
Net (reduction)/increase in allowance	(17 546)	5 834
<b>Balance at end of year</b>	<b>60 525</b>	<b>78 071</b>

**(c) Non-Accrual Status**

For loans with overdue amounts in excess of 180 days interest and service charges are recognized as income only when actually received. Follow-up action is being taken with the respective governments to obtain settlement of these obligations.

Had these amounts been recognized as income, income from loans as reported in the statement of revenues and expenses for the year 2003 would have been greater by USD 3 466 000 (2002 – USD 2 844 000). The corresponding figures relating to SPA were USD 50 000 (2002 – USD 47 000). The Member States concerned are shown below:

**(i) Borrowers in Non-Accrual Status – IFAD**

	USD '000

Loans outstanding	3 844 702	3 375 899

**(e) Loans to Non-Member States**

**Fund for Gaza and the West Bank (FGWB)**

At its Twenty-First Session in February 1998, the Governing Council adopted Resolution 107/XXI approving the establishment of a fund for the specific purpose of lending to the Gaza Strip and the West Bank. The application of Article 7, Section 1(b), of the *Agreement Establishing IFAD* was waived for this purpose. Financial assistance, including loans, is transferred to the FGWB by decision of the Executive Board and the repayment thereof, if applicable, is made directly to IFAD's regular resources.

**NOTE 4**

**INCOME FROM CASH AND INVESTMENTS**

**(a) Basic Principles**

The President may place or invest cash funds not needed immediately for the Fund's operations or administrative expenditures.

In investing the resources of the Fund, the President shall be guided by the paramount consideration of security and liquidity. Within these constraints, the President shall seek the highest possible return in a non-speculative manner.

Income earned from investments may, inter alia, be used by the Fund to meet its administrative and other expenditures in accordance with the approved budget.

**(b) Investment Management**

IFAD's current investment policy was adopted in December 2001. The investment policy allocates 5% in cash, 44% in government bonds, 23% in diversified fixed-interest instruments, 18% in inflation-indexed bonds and 10% in equities (previous investment policy – 5% in cash, 40% in government bonds, 10% in diversified fixed-interest instruments and 45% in equities) and has a credit floor of AA- for fixed-interest investments. The current investment policy was fully implemented in 2002 with the exception of the asset class for inflation-indexed bonds. A portion of the inflation-indexed bonds asset class remained unfunded as at 31 December 2003, with the unfunded amount being held in time deposits and government bonds.

Since 1994, management of the major part of IFAD's investment portfolio has been entrusted to external investment managers under investment guidelines provided by the Fund. At 31 December 2003, funds under external management amounted to USD 2 142.6 million (2002 – USD 1 710.2 million), representing some 85.8% (2002 – 77.7%) of total cash and investments.

**(c) Risk Management**

The Fund has addressed investment risks through the provision of the investment guidelines and custodial arrangements:

(i) **Credit Risk:** The investment guidelines permit investments in time deposits with selected commercial banks, government and government-guaranteed bonds, corporate bonds, bonds issued by multilateral development banks and exchange-traded derivatives of such securities. The eligibility of banks and bond issues is determined on the basis of ratings made by major credit-rating agencies.

(ii) **Market Risk:** Exposure to market risk is adjusted by modifying the duration of the portfolio, depending on the outlook for securities prices. The upper limit for the duration of the fixed-income portion of the portfolio is set at 0-2 years above the benchmarks of respective fixed-income asset classes. Options and futures are held for managing market risk rather than for trading purposes.

(iii) **Currency Risk:** The majority of the Fund's commitments are expressed in SDR. Consequently the overall assets of the Fund, including the investment portfolio and promissory notes, are maintained in such way as to ensure that, to the extent possible, commitments for undisbursed loans and grants denominated in SDR are matched by assets denominated in the currencies and in the ratios of the SDR valuation basket. Similarly, the General Reserve and commitments for grants denominated in United States dollars are matched by assets denominated in USD.

To increase returns, the Fund may invest in securities denominated in currencies other than those included in the SDR valuation basket, and enter into covered forward foreign-exchange agreements in order to maintain the matching in currency terms of commitments denominated in SDR and United States dollars.

(iv) **Custodial Risk:** IFAD has entrusted the safekeeping of its investment assets to a major custodian bank. The custodian safeguards the funds, maintains separate accounts for each externally managed investment subportfolio, and settles the investment transactions initiated by external investment managers. Following a tender process, the Fund changed its custodian bank with effect from 1 April 2003.

**(d) Derivative Instruments**

The Fund's investment guidelines authorize the use of the following types of derivative instruments:

**(i) Futures:** Futures contracts open at year-end were as follows:

	2003	2002
	31 December	
Number of contracts open:		
Buy	1 362	1 042
Sell	713	495
Net unrealized gains of open contracts (USD '000)	881	951
Maturity range of open options	67 to 354 days	59 to 349 days

**(ii) Options:** IFAD only permits the use of investment in exchange-traded options. It does not write option contracts.

Relevant data for options at year-end were as follows:

	2003	2002
	31 December	
Number of contracts open:		
Buy	0	193
Sell	683	166
Market value of open contracts gain/(loss) (USD '000)	(350)	(226)
Net unrealized gains/(losses) of open contracts (USD '000)	157	(18)
Maturity range of open options	51 to 348 days	52 to 349 days

**(iii) Covered Forwards:** The unrealized market-value gain on forward contracts at 31 December 2003 amounted to USD 191 000 (2002 – loss of USD 77 000). The maturity of forward contracts at 31 December 2003 ranged from 16 to 76 days (31 December 2002 – 16 to 51 days).

**(e) Valuation**

The Fund records its investment portfolio at market value, with the exception of selected securities that the Fund intends to hold until maturity, and which are therefore carried at cost. Both realized and unrealized gains and losses are recognized in the period to which they relate and are included in income from cash and investments.

**(f) Income from Cash and Investments**

The gross income from cash and investments for the year ended 31 December 2003 amounted to USD 114 500 000 (2002 – gross income of USD 34 620 000). This figure is gross of direct charges against investment income of USD 5 590 000 (2002 – USD 7 995 000), which from 2003 on are included in expenses. The 2002 figures have been restated accordingly (see Note 8).

	2003	2002
	USD '000	
Interest from fixed-income investments	67 515	59 154
Dividend income from equities	4 709	7 652
Net income from futures and options	2 166	1 652
Realized capital income from fixed-income securities	41 532	11 671
Realized capital loss from equities	(1 631)	(101 259)
Unrealized (loss)/gain from fixed-income securities]	(48 374)	41 852
Unrealized gain from equities	44 507	10 505
Income from securities lending and commission recapture	430	436
Interest income from banks and non-convertible currencies	3 646	2 957
<b>Total</b>	<b>114 500</b>	<b>34 620</b>

The above figures include income for the consolidated entities, as follows:

	2003	2002
	USD '000	
IFAD	113 477	34 050
ASMCS Trust Fund	256	269
Debt Initiative for HIPCs Trust Fund	320	301
BSF	297	420
Other supplementary funds	447	635
Less: income deferred/retained	(297)	(995)
Less: interfund interest	–	(60)
<b>Total</b>	<b>114 500</b>	<b>34 620</b>

The average rate of return on consolidated cash and investments in 2003 was positive 4.9% gross of expenses and positive 4.7% net of expenses (2002 – positive 1.6% gross of expenses, positive 1.2% net of expenses).

The average rate of return on IFAD cash and investments in 2003 was 5.1% positive gross of expenses and 4.9% positive net of expenses (2002 –1.6% positive gross of expenses, 1.3% positive net of expenses).

**NOTE 5  
INCOME FROM OTHER SOURCES**

This income relates principally to reimbursement from the Host Government for specific operating expenditures. It also includes service charges received from entities housed at IFAD as compensation for providing administrative services. The analysis is as follows:

	2003	2002
	USD '000	
Service charges	111	99
Host Government income	5 357	6 147
Income from other sources	144	–
<b>Total</b>	<b>5 612</b>	<b>6 246</b>

In 2002, these revenues were set directly against the related cost in the accounts and the net effect was zero; from 2003 on these revenues are shown gross of the related costs for reasons of improved transparency. The 2002 figures (revenues and related staff costs) have been restated accordingly by the amounts shown above.

**NOTE 6  
CONTRIBUTIONS INCOME**

Contributions received for non-replenishment resources to finance specific activities are included in the statement of revenues and expenses in the year in which the related expenditure is incurred. For cofinancing activities, contributions received are recorded as revenues in the period in which the related grant is approved. Contributions relating to programmatic grants, associate professional officers and other supplementary funds are recorded in the balance sheet as deferred income and reduced by the amount of project-related expenses in the statement of revenues and expenses.

Prior to 2003, contributions received for the Debt Initiative for HIPCs Trust Fund and BSF.JP were included as complementary contributions together with regular contributions in the balance sheet. From 2003 on these contributions are recognized as income within the statement of revenues and expenses and matched against related expenditures, in order to align with the accounting principle adopted by IFAD's combined supplementary funds and to present the underlying nature of these balances more clearly. Disclosure of these contributions can be found in Appendix E1.

A summary of the net effect of these changes is shown below. The 2003 figures have not been presented, as it is impracticable to do so:

	USD '000		
	Prior to Change	Impact of New Policy	Restated Balance
<b>2002</b>			
<i>In balance sheet:</i>			
Complementary contributions	35 567	(35 567)	-
<i>In statement of revenues and expenditures:</i>			
Contributions revenue	-	26 170	26 170

Individual donors provided human resources (associate professional officers) to assist in IFAD's activities. From 2002, the benefits received from donors have been recorded as revenues and the costs included in staff costs.

**NOTE 7  
STAFF NUMBERS AND RETIREMENT AND MEDICAL BENEFITS**

**(a) Staff Numbers**

Employees that are on IFAD's payroll are part of the benefits system offered by IFAD. These benefits include participation in the United Nations Joint Staff Pension Fund (UNJSPF) and in the After-Service Medical Coverage Scheme administered by FAO.

The number of approved posts of the Fund, including the President and Vice President, at 31 December was as follows:

IFAD Posts	2003 and 2002
Professional	134.0
General Service	181.5
<b>Total</b>	<b>315.5</b>

The number of staff on the payroll of the Fund and other consolidated entities by principal budget source as at 31 December 2003 was as follows:

	Professional	General Service	Total
IFAD admin. budget	147	244	391
IFAD PDFF	9	12	21
IFAD other sources	4	10	14
BSF.JP	2	3	5
Associate professional officers	20	0	20
Programmatic funds	10	3	13
<b>Total</b>	<b>192</b>	<b>272</b>	<b>464</b>

The difference between approved posts and number of staff engaged on the payroll consists in staff engaged on temporary contracts.

As in previous years, IFAD engaged the services of consultants, conference personnel and other temporary staff to enable it to meet its operational needs.

**(b) Retirement Plan**

IFAD is a member organization participating in the UNJSPF, which was established by the United Nations General Assembly to provide retirement, death, disability and related benefits. The Pension Fund is a funded, defined benefit plan. The financial obligation of the organization to the UNJSPF consists of its mandated contribution, at the rate established by the United Nations General Assembly, together with any share of any actuarial deficiency payments under Article 26 of the Regulations of the Pension Fund. Such deficiency payments are only payable if and when the United Nations General Assembly has invoked the provision of Article 26, following determination that there is a requirement for deficiency payments based on an assessment of the actuarial sufficiency of the Pension Fund as of the valuation date. At the time of this report, the United Nations General Assembly has not invoked this provision.

The actuarial method adopted is the Open Group Aggregate method. The cost of providing pensions is charged to the income statement so as to spread the regular cost over the service lives of employees, in accordance with the advice of the actuaries, who carry out a full valuation of the period plan every two years. The latest actuarial valuation was prepared as of 31 December 2001. This valuation revealed a third consecutive actuarial surplus, amounting to 2.92% of pensionable remuneration. IFAD makes contributions on behalf of its staff (currently payable by the participant and IFAD at 7.9% and 15.8%, respectively, of the staff member's pensionable remuneration) and would be liable for its share of the unfunded liability, if any. Total retirement plan contributions made for staff in 2003 amounted to USD 5 460 000 (2002 - USD 4 510 000). "The plan exposes participating enterprises to actuarial risks associated with the current and former employees of other enterprises, with the result that there is no consistent and reliable basis for allocating the obligation, plan assets and costs to individual enterprises participating in the plan." (International Accounting Standards Board, *International Accounting Standards 2002*, IAS 19, p.4 (London, 2002).) IFAD is not able to identify its share of the underlying financial position and performance of the plan with sufficient reliability for accounting purposes, and hence has not recorded any assets in its accounts in this regard, nor included related information such as the return on plan assets.

### (c) After-Service Medical Coverage Scheme

IFAD participates in a multi-employer After-Service Medical Coverage Scheme administered by FAO for staff receiving a United Nations pension and eligible former staff on a shared-cost basis. The ASMCS operates on a pay-as-you-go basis, meeting annual costs out of annual budgets and staff contributions. Since 1995, FAO has engaged an actuary to determine the unfunded accrued liability pertaining to the scheme, of which IFAD is allocated its share, currently based on pensionable remuneration. IAS No. 19 requires that this liability be fully provided in the accounts of an organization immediately.

The latest actuarial valuation was carried out as at 31 December 2001. The methodology used was the projected unit-credit-cost method with service prorate. The principal actuarial assumptions used were as follows: discount rate, 6.0%; expected salary increases, 3.0%; medical cost increases, 4.5%; and inflation, 2.5%. The results determined IFAD's share of the unfunded liability as at 31 December 2001 to be some USD 23.3 million. The 2003 and 2002 financial statements include a provision and related assets constituted as follows as at 31 December:

	2003	2002
	USD million	
<b>Past service costs</b>		
Total provision brought forward	19.1	11.2
One fifth of estimated initial deficit of USD 12.9 million	2.6	2.6
One fourth of integration to original deficit of USD 6.8 million	1.6	1.7
Cost charged in year	-	3.6
Total charge for unfunded deficit	4.2	7.9
Provision carried forward	23.3	19.1
<b>Current service costs</b>		
Provision brought forward	3.3	2.6
Charge in year	0.7	0.7
Cumulative provision	4.0	3.3
Total costs charged in year	4.9	8.6
<b>Interest earned</b>		
Interest earned on balances	0.3	0.2
Cumulative interest earned	0.5	0.2
<b>Total provision at 31 December</b>	<b>27.8</b>	<b>22.6</b>

IFAD provides for the full annual current service costs of this medical coverage, including its eligible retirees. In 2003, such costs included within staff salaries and benefits in the financial statements amounted to USD 721 000 (2002 – USD 721 000). In 2002 this liability was included as restricted cash in the balance sheet, but in 2003 the balances have been included in the consolidated accounts as non-restricted balances. The comparative figures have been restated accordingly.

It is intended that actuarial valuations will continue to be carried out at least every two years. A new valuation is currently in progress to determine IFAD's deemed liability as at 31 December 2003, the results of which are expected to be included in IFAD's 2004 accounts, since they are not available at the time of preparation of the current year accounts.

In accordance with the relevant accounting standard, IFAD has set up a trust fund into which it transfers the accrued assets. This is necessary in order for these assets to qualify as ASMCS assets and as such to be used to offset IFAD's deemed liability for its former staff under this scheme.

### NOTE 8 DIRECT BANK AND INVESTMENT COSTS

	2003	2002
	USD '000	
Investment management fees	(5 087)	(7 248)
Net other charges	(190)	(271)
<b>Total</b>	<b>(5 277)</b>	<b>(7 519)</b>

From 2003 on these costs are included as a separate line item within expenses for reasons of improved clarity and transparency. In prior years, they were set against investment income. The comparative figures have been restated accordingly in order to conform to the 2003 presentation.

### NOTE 9 OPERATING EXPENSES

An analysis of IFAD operating expenses by principal funding source is shown in Appendix A2.

The Programme Development Financing Facility finances the multi-year expenditures required for the design, implementation and supervision of projects and programmes financed by loans and grants from IFAD. During 2002 the Fund changed its accounting policy related to costs of the PDFF. The catalyst for this change was the establishment of the PDFF by the Governing Council in February 2001, as a cost category separate from IFAD's programme of work and budget. From 2002 on, when an obligation is incurred for PDFF costs, the related costs are recorded as a separate line item within expenditures in the statement of revenues and expenses and as a liability in the balance sheet for undisbursed accrued amounts. PDFF commitments are recorded as a deduction from resources available for commitment upon effectiveness of the underlying activities, based on specific milestones for each type of activity.

From 2003 on the costs incurred relating to PDFF, and the strategic change programme as well, are classified in the accounts in accordance with the underlying nature of the expense. This change in presentation has been made to ensure more consistency in the reporting of expenditures by cost type. Previously, the costs were included as separate line items in operating expenses, which for 2002 have also been restated to include the effect of expenditures incurred for service charges and other income (see Note 5). The prior year information has been restated accordingly to conform to the current presentation.

As part of the strategic change programme, during 2003 the Fund has implemented new financial systems for the general ledger, contributions and certain expenditures. Financial data has been migrated from the Legacy system of the general ledger as at 1 April 2003. The migration of financial data involved retrieval, conversion and transformation, and required adding new data fields and restructured values to take into account the new activity-based budget structure. During the migration period, business was conducted continuously while waiting for the closure of accounts at 31 March 2003, the data clean-up initiated prior to migration, and the accounting entries required to reflect the changes in accounting principles described in Note 2(i).

**NOTE 10  
GRANTS**

The *Agreement Establishing IFAD* empowers the Fund to make grants to its Member States, or to intergovernmental organizations in which its Members participate, on such terms as the Fund deems appropriate.

Grants are recorded at effectiveness as a separate line item of expenditures in the statement of revenues and expenses and as a liability in the balance sheet for undisbursed amounts. Cancellations of undisbursed balances shall be recognized as an offset to the expense in the period in which they occur. These grants are deducted from resources available on approval by the appropriate authority, consistent with prior years.

Grants include annual funding for entities housed at IFAD, i.e. the International Land Coalition and Global Mechanism:

	2003	2002
	USD '000	
International Land Coalition	500	600
Global Mechanism	-	1 250
<b>Total</b>	<b>500</b>	<b>1 850</b>

**NOTE 11  
DEBT INITIATIVE FOR HEAVILY INDEBTED POOR COUNTRIES**

**(a) Background to the Debt Initiative for HIPCs**

IFAD participates in the International Monetary Fund/World Bank original and enhanced Debt Initiative for Heavily Indebted Poor Countries as an element of IFAD's broader policy framework for managing operational partnerships with countries that have arrears with IFAD, or that face the risk of having arrears in the future because of their debt-service burden. Accordingly, IFAD provides debt relief by forgiving a portion of an eligible country's debt-service obligations as they become due.

In 1998, IFAD established a trust fund for the Debt Initiative. This fund receives resources from within IFAD (when approved by the Executive Board) and from other sources, specifically dedicated as compensation to the loan-fund account(s) for agreed reductions in loan repayments under the Initiative. (Refer to Appendix G for details). Amounts of debt service forgiven are expected to be reimbursed by the trust fund on a pay-as-you-go basis to the extent that resources are available in the fund.

IFAD has funded the Debt Initiative in the amount of USD 59.7 million during the period 1998-2003. Details of funding from external donors on a cumulative basis are found in Appendix E1.

**(b) Impact of the Debt Initiative for HIPCs**

Upon approval of individual debt relief by the Executive Board, the nominal value of the principal component of estimated debt relief costs is recorded as a reduction of disbursed and outstanding loans under accumulated allowance for the Debt Initiative for HIPCs, and as a charge to income. This estimate is subject to periodic revision. Significant judgements have been used in the computation of the estimated nominal value of allowances for the Debt Initiative.

The accumulated allowance for the Debt Initiative is reduced when debt relief is provided by the trust fund (see subparagraph (c) below).

For a summary of debt relief reimbursed since the start of the Debt Initiative and of that expected in the future, please refer to Appendix G. Debt relief approved by the Executive Board to date excludes all amounts relating to the enhanced Debt Initiative for Burundi, the Central African Republic, The Comoros, The Congo, Côte d'Ivoire, Laos, Liberia, Somalia, The Sudan and Togo. Debt relief for these countries at the end of 2002 was announced by the World Bank/International Monetary Fund. Authorization for IFAD's share of this debt relief is expected to be given by the Executive Board in 2004. At the time of preparation of the 2003 financial statements, the estimate of IFAD's share of the overall debt relief for these countries, principal and interest, was USD 140 660 000.

Gross investment income amounted to USD 320 000 (2002 - USD 301 000) from Debt Initiative trust fund balances. In 2002 this income was included in the net charge for Debt Initiative commitments in the statement of revenues and expenses, but from 2003 on it is included in consolidated income from cash and investments.

The total cumulative cost of debt relief derives from the following sources:

	USD '000		
	2003	Movement	2002
IFAD contributions 1998-2003	59 670	27 000	32 670
Shortfall between debt relief approved and funds available (Appendix A)	209 104	14 010	195 095
Subtotal (Appendix A1)		41 010	
Cumulative net exchange-rate movements	30 703	21 547	9 155
Change in accounting principle for contributions	(36 900)	(36 900)	-
<b>Total IFAD cumulative cost</b>	<b>262 577</b>	<b>25 657</b>	<b>236 921</b>
Contributions from external sources:			
The Netherlands	12 487	508	11 978
Germany	6 989		6 989
Belgium	2 713		2 713
Norway	5 912	5 912	
Luxembourg	778	778	
Cumulative net investment income	1 771	311	1 460
<b>Total (Appendix G)</b>	<b>293 227</b>	<b>33 166</b>	<b>260 061</b>

**(c) Accumulated Allowance for the Debt Initiative for HIPC's**

On approval of the Executive Board, the estimated nominal value of the principal component of the debt relief to be provided under the Debt Initiative for HIPC's framework is included as a cost to the accumulated allowance for the Debt Initiative. This cost is offset by income receivable from the Debt Initiative trust fund to the extent that resources are available. These amounts are net of any debt relief delivered to date. The balances for the years ended 31 December are summarized below:

	2003	2002
	USD '000	
Balance at beginning of year	236 056	189 442
Repayments of principal	(9 375)	(5 969)
New approvals	10 135	36 631
Less exchange-rate movements	19 156	15 952
Balance at end of year	255 972	236 056

**NOTE 12  
CASH AND INVESTMENT BALANCES**

**(a) Analysis of Balances**

	2003	2002 (Restated) <sup>1</sup>
	USD '000	
Unrestricted cash	269 965	361 270
Cash subject to restriction (Note 12(c))	394	355
<b>Total</b>	<b>270 359</b>	<b>361 625</b>
Unrestricted investments	2 424 410	2 078 326
Investments subject to restriction (Note 12(c))	400	397
<b>Total</b>	<b>2 424 810</b>	<b>2 078 723</b>

<sup>1</sup> See Note 12(b) below.

**(b) Classification of Cash and Investment Balances**

In 2002, certain balances relating principally to the IFAD Credit Union and supplementary funds/trust fund balances were classified as restricted cash and investments. In the 2003 accounts, these balances have been reclassified as accounts owing to third parties and unrestricted (consolidated) cash and investments respectively.

**(c) Cash and Investments Subject to Restriction**

- (i) Currencies Not Freely Convertible: Cash and investments held by the Fund at 31 December 2003 in currencies that are not freely convertible amounted to USD 394 000 (2002 – USD 355 000) and USD 400 000 (2002 – USD 397 000) respectively.

In accordance with the *Agreement Establishing IFAD*, the amounts paid into the Fund by the then Category III Member States in their respective currencies on account of their initial or additional contributions are subject to restriction in usage.

- (ii) Advance Contributions to the Sixth Replenishment: In 2002, amounts received in cash as advance payments for Sixth Replenishment contributions totalled USD 173 000. These amounts were excluded from resources available for commitment as the Sixth Replenishment was not yet effective. In 2003, the advance payments made for the Sixth Replenishment were reclassified as part of regular resources on the effectiveness of the Sixth Replenishment. The prior year figures have been reclassified for the sake of consistency.

**(d) Composition of the Investment Portfolio by Instrument**

At 31 December 2003, cash and investments at market value amounted to USD 2 495 963 000, excluding restricted and non-convertible currencies (2002 – USD 2 200 917 000 restated), and comprised the following instruments:

	2003	2002
	USD '000	
Cash	269 965	361 270
Fixed-income instruments	1 839 854	1 450 360
Unrealized market-value gain/(loss) on forward contracts	191	(77)
Time deposits and other obligations of banks	327 473	430 973
Equities	253 306	195 378
Futures	3 936	1 918
Options	(350)	(226)
Total cash and investments	2 694 375	2 439 596
Receivables for investments sold	31 433	78 047
Payables for investments purchased	(229 845)	(316 726)
<b>Total</b>	<b>2 495 963</b>	<b>2 200 917</b>

**(e) Composition of the Investment Portfolio by Currency**

The currency composition of cash and investments at 31 December was as follows:

	2003	2002
	USD '000	
Euro	694 914	573 994
Japanese yen	360 775	276 608
Pound sterling	279 472	218 047
United States dollar	1 061 351	1 040 813
Others	99 451	91 455
<b>Total</b>	<b>2 495 963</b>	<b>2 200 917</b>

**(f) Composition of the Investment Portfolio by Maturity**

The composition of cash and investments by maturity at 31 December was as follows:

	2003	2002
	USD '000	
Due in one year or less	529 910	608 660
Due after one year through five years	1 040 526	457 341
Due from five to ten years	268 688	373 420
Due after ten years	403 840	566 313
No fixed maturity (equities)	252 999	195 183
<b>Total</b>	<b>2 495 963</b>	<b>2 200 917</b>

The average life to maturity of the fixed-income investments included in the consolidated investment portfolio at 31 December 2003 was 90 months (2002 – 124 months).

**NOTE 13****CONTRIBUTORS' PROMISSORY NOTES AND RECEIVABLES**

	2003	2002
	USD '000	
Promissory notes to be encashed		
Replenishment contributions	272 461	292 574
Supplementary contributions	29 252	35 567
<b>Total</b>	<b>301 713</b>	<b>328 141</b>
Contributions receivable		
Replenishment contributions	371 260	192 399
Complementary contributions	1 502	4 657
Supplementary contributions	19 775	17 071
<b>Total</b>	<b>392 536</b>	<b>214 127</b>

**(a) Initial, First, Second, Third and Fourth Replenishment Contributions**

These contributions have been fully paid except as detailed in Note 14 and in the matrix below, the latter representing cases in which Members and IFAD have agreed to special encashment schedules.

**Contributions Not Paid at 31 December 2003**

	USD '000	
Donor	Replenishment	Amount
Australia <sup>1</sup>	Fourth	1 398
France <sup>1</sup>	Fourth	4 346

United Kingdom <sup>1</sup>	Fourth	11 811
United States <sup>2</sup>	Fourth	11

<sup>1</sup> Subject to special arrangement.

<sup>2</sup> Qualified contribution.

**(b) Fifth Replenishment**

Details of Fifth Replenishment contributions are shown in Appendix E.

The Fund's Fifth Replenishment came into effect on 7 September 2001, when instruments of contribution were deposited amounting in aggregate to 50% of the respective contributions from Members as set forth in Resolution 119/XXIV, adopted by the Twenty-Fourth Session of the Governing Council, as amended.

**(c) Sixth Replenishment**

Details of payments made for the Sixth Replenishment are shown in Appendix E. At 31 December 2002, requirements for the effectiveness of the Sixth Replenishment had not yet been met, hence any contributions received at that date were excluded from the resources of the Fund. The Sixth Replenishment became effective on 17 December 2003 and hence any such contributions have been classified as regular resources in 2003.

**(d) Special Programme for Africa (SPA)**

Details of contributions to the SPA under the First Phase and Second Phase are shown in Appendix E.

**NOTE 14  
PROVISIONS**

In accordance with the policy referred to in Note 2(f) and (h), the Fund has established provisions as follows:

	2003	2002
	USD '000	
Balance at beginning of the year	186 755	195 655
Total movements	(6 084)	(8 910)
Balance at end of year	180 671	186 755
Analysed as:		
Promissory notes of contributors (a)	88 176	94 685
Amounts receivable from contributors (b)	92 495	92 070
<b>Total</b>	<b>180 671</b>	<b>186 755</b>

**(a) Provisions against Promissory Notes**

As at 31 December 2003, all IFAD replenishment contributions up to and including the Fifth Replenishment, deposited in the form of promissory notes, have been drawn down to the extent of 100% (31 December 2002 – 100% up to the Fourth Replenishment and 61.0% for the Fifth Replenishment).

As at 31 December 2003 and 2002, all First and Second Phase SPA contributions have been fully drawn down.

In accordance with the policy referred to in Note 2 (f) and (h), the Fund has established provisions against promissory notes as indicated hereunder.

	2003	2002
IFAD	USD '000	
<b>(i) Initial Contributions</b>		
Iran	29 358	29 358

	5 002	5 002
<b>(iv) Third Replenishment</b>		
D.P.R. Korea	600	600
Libyan Arab Jamahiriya	7 857	7 857
Mauritania	25	25
	8 482	8 482
<b>Total IFAD</b>	<b>88 166</b>	<b>94 675</b>
<b>SPA</b>		
First Phase		
Mauritania	10	10
<b>Total SPA</b>	<b>10</b>	<b>10</b>
<b>GRAND TOTAL</b>	<b>88 176</b>	<b>94 685</b>

**(b) Provisions against Amounts Receivable from Contributors**

In accordance with the policy referred to in Note 2 (f), the Fund has established provisions against certain of these amounts as indicated hereunder.

	2003	2002
	USD '000	
<b>(i) Initial Contributions</b>		
Comoros	9	8
Iran	83 167	83 167
	83 176	83 175
<b>(ii) Second Replenishment</b>		
Gabon	371	371
Iraq	2 000	2 000
	2 371	2 371
<b>(iii) Third Replenishment</b>		
Iran	2 400	2 400
Qatar	1 000	1 000
Sao Tome and Principe	10	10
	3 410	3 410
<b>(iv) Fourth Replenishment</b>		
Chile	400	420
Kenya	877	927
Nicaragua	-	17
Nigeria	-	1 750
	1 277	3 114
<b>(v) Fifth Replenishment</b>		
Turkey	2 261	-
<b>Total</b>	<b>92 495</b>	<b>92 070</b>

Subsequent to 31 December 2003, an amount of USD 1.8 million was received from the Libyan Arab Jamahiriya in payment of Third Replenishment contributions. Had this amount been received prior to 31 December 2002, the total provisions on promissory notes would have been reduced to USD 86 406 000.

**(c) Effect of Alignment in Time Period for Provisions**

As described in Note 2(i), the time period for determining provisions on promissory notes has been aligned in the balance sheet and resources statement, with effect from 2003. There was no impact deriving from this change on promissory notes excluded from the statement of resources as at 31 December 2003. The prior year figures for resources have not been restated, given that this statement is a managerial rather than a financial report and is used for operational purposes.

This change has no impact on the statement of revenues and expenses or on the balance sheet.

**NOTE 15  
OTHER RECEIVABLES**

	2003	2002
	USD '000	
Receivables for investments sold	31 433	78 047
Miscellaneous	18 773	8 577
<b>Total</b>	<b>50 206</b>	<b>86 624</b>

The amounts above are expected to be received within one year of the balance-sheet date.

**NOTE 16  
PAYABLES AND LIABILITIES**

	2003	2002
	USD '000	
Payables for investments purchased	(229 845)	(316 726)
ASMCS liability	(27 373)	(22 378)
Other payables and accrued liabilities	(43 138)	(41 735)
<b>Total</b>	<b>(300 356)</b>	<b>(380 839)</b>

Of the total above, some USD 56.8 million (2002 - USD 48.2 million) is estimated to be payable in more than one year from the balance-sheet date.

**NOTE 17  
DEFERRED REVENUES**

	2003	2002
	USD '000	
Deferred contributions	(50 107)	(42 043)
Deferred income	(4 483)	(3 858)
<b>Total</b>	<b>(54 590)</b>	<b>(45 901)</b>

Deferred contributions balances represent contributions received for which the revenue recognition has been deferred to future periods to match the related costs in accordance with the accounting policy stated in Note 2(a).

Deferred income includes amounts relating to service charges received for which the related costs have not yet been incurred.

**NOTE 18  
CONTRIBUTIONS**

The contributions to the Fund by each Member when due are payable in freely convertible currencies, except that Category III Members up to the end of the Third Replenishment period could pay contributions in their own currency whether or not it was freely convertible. Each contribution is to be made in cash or, to the extent that any part of the contribution is not needed immediately by the Fund in its operations, it may be paid in the form of non-negotiable, irrevocable, non-interest-bearing promissory notes or obligations payable on demand. The Fund, on the recommendation of its External Auditor, has considered it prudent to establish provisions against unpaid contributions (see Notes 2(f), and 14).

**NOTE 19  
GENERAL RESERVE**

The General Reserve was established in recognition of the need to cover the Fund's potential over-commitment risk as a result of exchange-rate fluctuations and possible delinquencies in receipt of loan-service payments or in the recovery of amounts due to the Fund from the investment of its liquid assets. It is also intended to cover the risk of over-commitment as a result of a diminution in the value of assets caused by fluctuations in the market value of investments.

**NOTE 20  
TAXATION**

IFAD is a specialized agency of the United Nations and as such enjoys privileged tax-exemption status under the Convention on Privileges and Immunities of Specialized United Nations Agencies 1947 and the Agreement between the Italian Republic and IFAD on IFAD's Permanent Headquarters. Taxation levied where this exemption has not yet been obtained is deducted directly from the related investment income.

**NOTE 21  
CONTINGENCIES**

**(a) Contingent Liabilities**

IFAD has contingent liabilities in respect of debt relief announced by the World Bank/International Monetary Fund for eleven countries. See Note 11(b) for further details of the potential cost of loan principal and interest relating to these countries, as well as the future interest not accrued on debt relief already approved as shown in Appendix G.

**(b) Contingent Assets**

The organization expects to receive some EUR 974 000 (currently USD 1 229 000) in reimbursement of taxation deducted on investment income in prior years. These costs were fully provided for in the accounts of previous years as the exact amount and year in which the reimbursement will be made was not certain. IFAD has submitted a formal request to the Italian Government to reclaim these taxes.

**NOTE 22  
DATE OF AUTHORIZATION FOR ISSUE OF FINANCIAL  
STATEMENTS**

The financial statements are authorized for issue following the recommendation of the Audit Committee in March 2004 and endorsement by the Executive Board in April 2004. The 2003 financial statements will be submitted to the Governing Council for formal approval at its next session in February 2005. The 2002 financial statements were approved by the Governing Council at its Twenty-Seventh Session in February 2004.

The International Fund for Agricultural Development  
Rome

We have audited the accompanying consolidated Financial Statements (Appendices A through H) of the International Fund for Agricultural Development (the Fund) as at and for the years ended 31 December 2003 and 2002. These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with International Standards on Auditing. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements give a true and fair view of the consolidated financial position of the International Fund for Agricultural Development at 31 December 2003 and 2002, and the results of its operations and its cash flows for the years then ended in accordance with International Financial Reporting Standards.

Rome, 26 March 2004
