

## 2020 Call for Nominations: Indigenous Peoples Awards

**IFAD and Indigenous Peoples.** Based on its [Policy on Engagement with Indigenous Peoples](#), IFAD supports indigenous peoples' self-driven development, while respecting and enhancing their traditional livelihoods, occupations and knowledge. At the same time, their role in managing of ecosystems and protecting biodiversity is a central pillar of IFAD's approach to mainstreaming the issues of nutrition, gender, youth and climate, particularly given the challenges faced by young indigenous women. Indigenous peoples hold valuable knowledge and traditions that provide solutions to major challenges. Their exclusion and marginalization threatens the central tenet of the 2030 Agenda – to leave no one behind. Since 2007, IFAD has financed, supported and managed the [Indigenous Peoples Assistance Facility \(IPAF\)](#), to build a direct partnership with indigenous peoples to enable them and their communities to design, approve and implement grass-roots development projects based on their own perspectives.

**What are the Indigenous Peoples Awards?** The Indigenous Peoples Awards, organized by IFAD's Indigenous Peoples Team in partnership with the members of the Steering Committee of the [Indigenous Peoples' Forum at IFAD](#) and of the Board of the Indigenous Peoples Assistance Facility (IPAF), are awarded biennially to recognize the efforts and the achievements of development projects that successfully engage with indigenous peoples living in rural areas. The purpose is to promote best practices of engagement, share knowledge and lessons learned and identify opportunities to replicate and scale-up results. The awarded projects will gain visibility and recognition throughout IFAD and its network of partners. The prizes will be delivered to representatives of indigenous peoples or ethnic minorities from the awarded projects<sup>1</sup>.

### The process (first edition)

<sup>1</sup> Travel, visa, lodging and daily subsistence allowance costs will be covered by IFAD for one indigenous beneficiary from each of the 3 awarded projects (in case the global meeting of the Indigenous Peoples' Forum at IFAD will be held residentially).

## Awards Categories and Eligibility Criteria

Award Category	Who can apply	Project maturity
Best performing IFAD-funded project	IFAD staff, Project management staff	The project must be under implementation for at least two years
Best performing non-IFAD funded project	Indigenous peoples or ethnic minorities' organizations, communities, groups or associations implementing projects in rural areas of countries where IFAD operates (for a list of eligible countries, click <a href="#">here</a> )	
Best performing IPAF-funded project	Organizations implementing projects approved under the fifth IPAF cycle	The project must be under implementation for at least one year

### Selection Criteria

**Results:** The extent to which the nominated project has resulted in a measurable and positive impact in promoting indigenous peoples' right to self-determination;

**Sustainability:** The extent to which the nominated project contributed to the advancement of the Sustainable Development Goals;

**Integrated approach:** The extent to which the nominated project demonstrates opportunities for linkages and synergies between the engagement with indigenous peoples and the following themes: environment and climate change, gender, youth and nutrition;

**Scalability and/or replicability:** The extent to which the nominated project or its innovations can be scaled up and/or replicated elsewhere.

**How and when to apply?**

## **Attachment 1: List of project information required for nomination**

### **Category**

1. Best performing IFAD-funded project
2. Best performing non IFAD-funded project
3. Best performing IPAF-funded project

### **Contact information**

Name, title, organization, country, e-mail

### **Project name**

### **Project region**

### **Project country**

### **Area of project implementation**

### **Number of direct beneficiaries from indigenous peoples or ethnic minorities (actual or expected)**

### **Representative of an indigenous people or ethnic minority from the project**

Name, name of indigenous/tribal people or ethnic minority group, e-mail

### **Project director**

Name, title, e-mail

### **Implementation period**

Date the project became operational, project closing date (actual or expected)

### **Self-driven development**

Activities that build upon the asset of indigenous peoples or ethnic minorities' culture and identity and take full advantage of their traditional knowledge, culture, governance systems and natural resources to promote their self-driven development

*Note what has been achieved and how*

### **Participation – Free, prior and informed consent (FPIC)**

Initiatives to support the participation of indigenous peoples or ethnic minority communities in determining priorities and strategies for their own development, including through effective implementation of FPIC

*Note what has been achieved and how*

### **Sustainable Development Goals (SDGs)**

Positive impacts on the SDGs

*Note which SDGs have been positively impacted and how*

### **Integrated approaches**

Integrated approaches that promote linkages and synergies between indigenous peoples or ethnic minority communities and the following themes: environment and climate change, gender, youth and nutrition

*Note linkages and synergies between the successful engagement with indigenous peoples and at least one of the following themes: environment and climate change, gender, youth and nutrition*

### **Scalability and/or replicability**

The project or its innovations can be scaled-up and/or successfully replicated elsewhere

*Note the level of scalability and/or replicability*

## **Annex 2: Indicative examples of project that could be awarded**

- Increasing indigenous peoples communities' food security and nutrition;
- Preserving and promoting local varieties of traditional crops and indigenous food systems;
- Promoting inter-generational transfer of indigenous peoples' knowledge;
- Re-establishing lost, threatened and neglected food sources, practices and/or knowledge while adapting to changing conditions;
- Preserving wild species and seeds by establishing seed savers/keepers networks and community seed banks for indigenous seed varieties;
