

Helping Transform Rural Lives

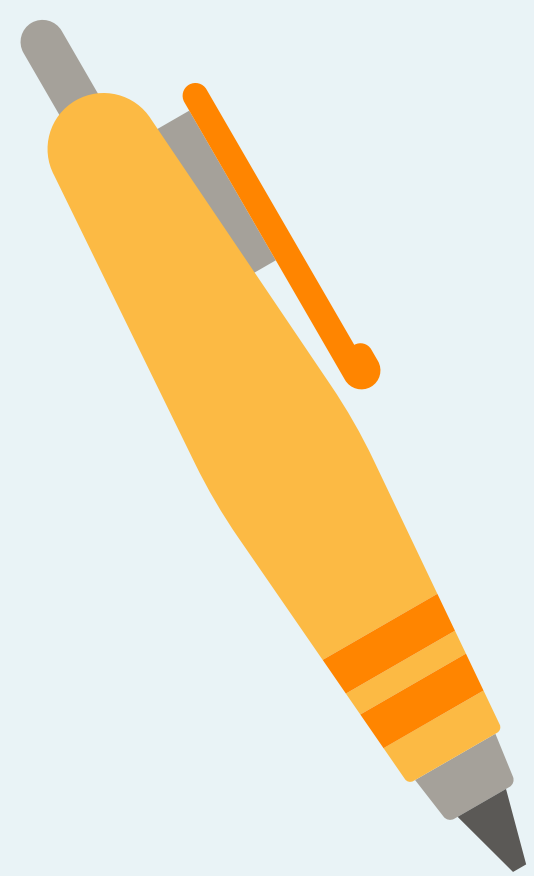

Major achievements of IFAD's Independent Office of Evaluation
2000-2019

Independent office
of evaluation

Publications

Within the reporting period, IOE has published:

6

**Corporate-level
Evaluations**

26

**Country Strategy
and Programme
Evaluations**

11

**Evaluation
Synthesis Reports**

43

**Project Performance
Evaluations**

5

Impact Evaluations

Major Events

2015

**Enhancing the Evaluability of Sustainable
Development Goal 2: Zero Hunger**

2017

**Information and Communication
Technologies: ICT4Eval**

2018

**Rural Inequalities: Evaluating Approaches
to Overcome Disparities**

Additional Evaluation Criteria

In addition to OECD's DAC principles for evaluation and IFAD's evaluation methodology, IOE has introduced the following criteria:

**Gender equality and
women's empowerment**

**Adaptation to climate
change**

**Environment and natural
resources management**

Innovation and scaling up

Communications

The Evaluation Communication Unit uses a range of tools to share evaluation knowledge:

- Publications
- Profiles
- Insights
- Infographics

- Website
- Newsletters
- Social Media
- Online Networks

- Webinars
- Media Relations
- Events
- ROOTS podcast

In 2018, IOE published "**Evaluation for Inclusive and Sustainable Rural Transformation: World Bank Series on Evaluation and Development, Volume 9**", which offers an in-depth look at the evolution of evaluation at IFAD.

Published in 2019, "**Information and Communication Technologies for Development Evaluation**", gives insight into the implications of new and emerging technologies in development evaluation.

IOE co-created the competition "**Evaluating Development Interventions for Transformational Change Award**", which rewards credible, innovative and influential evaluations.

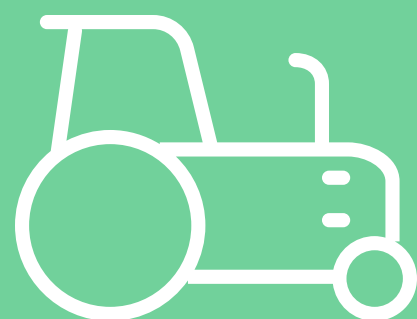

AGENDA 2030: Out of the 17 SDGs, many of them lie firmly in IFAD's domain, in particular: **SDG 2** – End hunger, achieve food security and improved nutrition, and promote sustainable agriculture.

Future Innovations

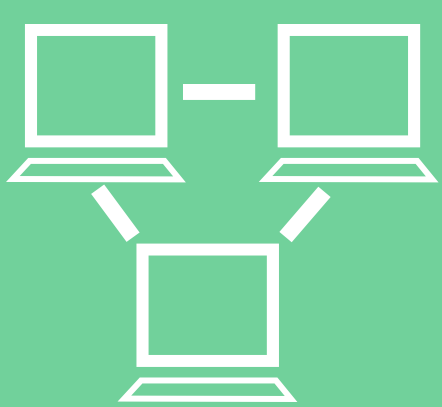

Continuing to invest in rural people

Forming new partnerships

Upgrading IT architecture and systems

Redefining key concepts

Defining and hitting new targets and indicators

Data collection and analysis
