| Main evaluation findings: project portfolio ● challenges (1/2) |
|--|
| |
| Project designs and implementation arrangements highly complex and not always fully cognizant of the national and local context. |
| Uneven progress in local value chains development; Innovation Platforms ineffective in ensuring fair distribution of benefits along the value chain; limited net returns to honey and pig producers. |
| Weak results in establishing institutions responsible for irrigation scheme and water management. |
| Progress in support of small-scale water management infrastructures slow and limited. |
| |
| Evaluation of IFAD Country Strategy and Programme in Eswatini: 2000 - 2021 8 |

Main evaluation findings: Coherence

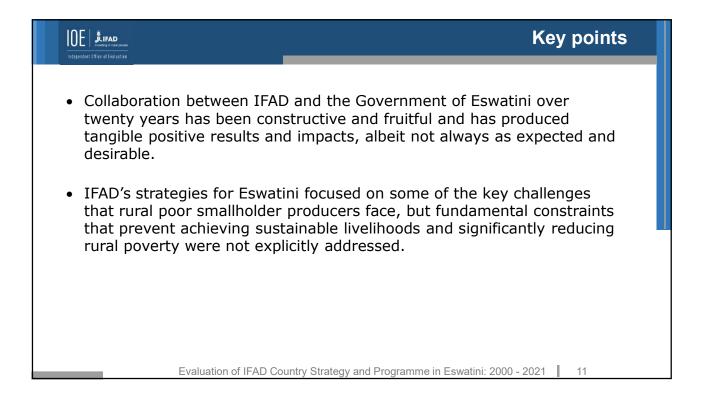

Strengths

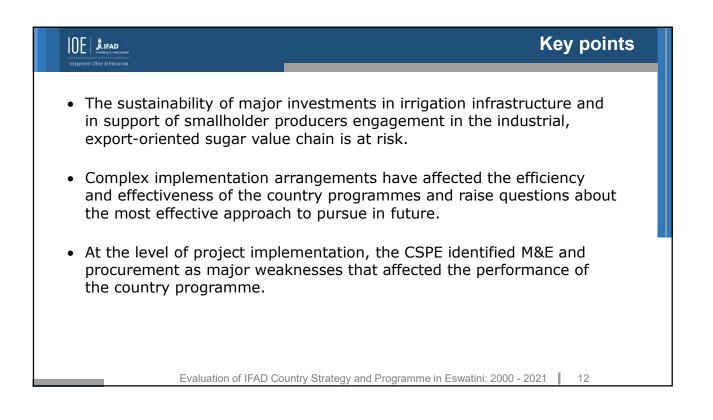

- Grants: good level of integration and coherence of regional grants with the lending portfolio, resulting in both planned and unplanned synergies.
- Knowledge Management: good level of lessons learning at the strategic level from and across the portfolio; some interesting initiatives on rural finance and environmental sustainability and through South South Cooperation.
- Policy engagement: achievements notable in the rural finance sector, and limited in the areas of land and water management and nutrition.

Challenges

 Partnerships solid and constructive with the Government but limited in numbers and characterized by contractual features with other categories of partners.

Evaluation of IFAD Country Strategy and Programme in Eswatini: 2000 - 2021 10

| IDE | Senter of a conception | Recommendations |
|-----|--------------------------------|--|
| • | in Eswatini the fundamental of | should address through its strategy and programme constraints that prevent rural smallholder , from achieving more sustainable livelihoods. |
| • | advocacy and advisory role, i | should further engage, at a minimum in an n addressing the emerging threats to the ducers who have their holdings in the LUSIP I PDA. |
| • | rich lessons learned over time | and the Government of Eswatini, drawing on the e, should define which are the most efficient and ingements for their joint initiatives, that will also to benefit the most. |
| • | procurement units should be | t monitoring and evaluation systems and considered fundamental pillars of project ely staffed and capacitated to perform in an r. |
